### M.Sc./Masters in Environmental Science and Management (MESM)

Session: 2022-2023

BUP invites application from potential candidates for M.Sc./Masters in Environmental Science and Management (MESM)

#### OVERVIEW AND PROSPECT OF THE DEGREE:

Pollution and climate change are the major challenges of the 21<sup>st</sup> century. A substantial number of qualified environmental professionals are needed both at home and abroad to efficiently handle those challenges of the Earth. Besides, today's most careers have a linkage with the environment, such as Business and Environment (Green Business), Finance and Environment (Green Banking), Economics and Environment (Environmental Economics), and Development and Environment (Sustainable Development). So, considering creating environmental professionals and enhancing career opportunities, we offer an interdisciplinary weekend M.Sc./Masters Program with overlapping social, ecological and economic issues. It admits students from different academic backgrounds.

The degree of M.Sc./Masters in Environmental Science and Management (MESM) from BUP has been designed for producing the most competent environmental professionals and experts. **The degree will be awarded in two categories: M.Sc. for students from science backgrounds and Masters for students from other disciplines.** In addition, this program builds and strengthens knowledge and environmental leadership as a critical foundation for the advancement of open and environmentally sustainable societies. The Employers of Environmental Science graduates include:

- Industrial Sectors
- Local Governmental Authorities (Like LGED)
- Environment Agencies (EA)
- Department of Environment (DoE)
- Environmental Monitoring Organizations
- Environmental Consultancies

So better hurry! Start your carrier as an environmental expert and contribute to the country's dream to achieve SDGs!
